

## Tree Planting Day

We are students in Imam Sadiq High school, Tehran, Iran, like every year try to plant flowers, plants and shrub in Tree Planting Day, 20 September. We respect to our environment in high school and have planted flowers, plants and shrub in all the classes and places like laboratory, library and gym.

Planting and maintenance of plant make our environment more beautiful and our ecosystem cleaner. As regards, our city Tehran, suffers from severe air pollution, so we try to make pleasant air and decrease its pollution by planting trees.

We are interested to know how our friends in other countries care and maintain their environment and what kind of flowers and plants they use for planting.

We invite our friends in other countries to come and visit our high school.

Participants in Tree Planting Day in Imam Sadiq High school, Tehran, Iran :
